HOW TO MEASURE

Here are some tips that will help you make sure that all of your members look terrific! First, check the description for the item that you are ordering, and note the chart letter that is listed.

Locate the correct chart and notice which measurements are needed for that particular chart. We have provided you with a roster on the back side of the order form pages. This page is to be used as a worksheet for you to list your members, their measurements and the sizes that you select for them. It is a good idea to make several copies of the roster page before beginning.

We recommend that members are measured wearing only undergarment or very lightweight clothing such as a t-shirt. Measuring over bulky clothing will give you inaccurate measurements. Make sure to hold the tape measure straight. It should be snug, but not tight.

SIZE SELECTION

It is important to note that every manufacturer's size scale varies a little. The charts listed in our catalog correspond to the way our merchandise fits. Sometimes members will end up being a different size in our apparel than what they normally buy in the store. We know that most people are hesitant about selecting a size from our chart that is larger than what they normally wear. However, we do recommend basing your size selection on our size chart instead of what you might wear in another brand.

For most ladies' garments, it is easiest to start by locating the bust and waist measurements on the size chart. For bust and waist measurements, the chart lists the maximum recommended measurement for that size. Our customer service representatives can give you more specific information on how to select sizes.

It is common for people to fall between sizes. Here is an example of a woman that is not exactly chart proportionate, but can select a size with a little compromise. Her measurements are: bust 37.5", waist 29", hips 43", skirt length 42". The dress that she is purchasing references size chart B. Notice that her bust and hips are between a size 8 and 10. Her waist is between a size 6 and 8. Since her bust and hips measurement are in the size 10 range, and her waist is in the size 8 range, we will order a size 10 for her knowing that her dress can be altered at the waist for a more exact fit. All of our pants and formal dresses are shipped

extra long to be hemmed locally for each individual wearer.

We request that you try to size as many of your members as possible using the above guidelines. If you have members that are especially difficult to fit, you can give us a call to discuss them with a customer service representative. As indicated by the previous example, often compromises have to be made and sometimes alterations will be necessary. Custom sizes are available on many items for individuals that are above the size range of our charts. See page 90 for additional information.

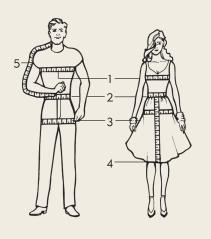

TAKING MEASUREMENTS

 BUST: Women measure around the fullest part of the bust, and around the back over the bra line.

CHEST: Men measure across shoulder blades, under arms, across chest.

- WAIST: Measure around smallest part of natural waist.
- 3. **HIPS**: Measure around the fullest part of hips.
- 4. **SKIRT LENGTH**: Measure from waist to desired location for hem.
- 5. **SLEEVE LENGTH**: Men's tuxedo shirts only. Bend elbow. Measure from center of back of neck, across shoulder, around point of elbow to wrist bone.

BACK LENGTH: Measure from base of neck to natural waist.

SAMPLES

Samples are a great way to review our merchandise and select the best style for your group. We are very proud of the quality manufacturing and updated styles that we offer, and welcome the opportunity to provide you with samples before you order. We require a MasterCard, Visa or American Express number to secure all sample orders, however no charge is put through on the card unless the samples are not returned. We request that you ship the samples back to us within 5 days after receiving them.

Samples are sent from our sample stock. Ladies' samples are usually a size 6 or 18 but some dress samples are also available in all sizes, so please inquire if your group prefers to see a specific size. Men's samples are usually a size 38 or medium. Due to the high demand for our sample garments at certain times of the year, we regretfully must limit each customer to two samples per category at a time (i.e. two dresses, two vests, etc.). We will gladly send you additional samples once your original sample order has been returned to us.

SELECTING SIZES

Sizes for your members can easily be selected from our size charts featured on pages 88-89 based on individual's measurements. For garments that are in-stock including Quick Delivery formal dresses and tuxedos, fit lines are available to assist you in selecting sizes for groups of 30 or more individuals.

Fit lines include one per size of the actual garments that you ordering and can be used to try on each member to determine the preferred size. Fit lines are considered a partial shipment of your total order and require a payment method at the time of ordering. Fit lines are not available for all styles, so please call.

CUSTOM SIZES

For those members that are above the size range of our charts, custom size garments can be made with an additional pattern charge as follows: dresses \$45, ladies' jackets and tops \$35, skirts, pants and vests \$25. Please supply all of the measurements that are requested on the charts for these items in order for us to make the custom pattern. Please take time to make sure the measurements are accurate, as custom garments are not returnable.

MINIMUM ORDERS

On items listed as custom, there is a minimum order of 6 garments per style and color on your first-order. There are no minimums on reorders once your group has met the minimum order of 6 units.

CUSTOM MERCHANDISE

Custom merchandise includes all show choir outfits, beaded tops and jackets and other items referenced as custom or made to order. This includes but is not limited to custom variations of stock merchandise and custom sizes. Sorry, but no returns or cancellations can be accepted on custom merchandise.

PRICES

Prices are occasionally incorrect due to either price changes throughout the year or typographical errors. Please call us to confirm any prices before ordering. If we receive an order with an incorrect price, we will notify you of price changes or errors of 15% or more

COLORS

Colors photographed throughout the catalog are not always accurate due to variations that occur in printing. Upon request, we will send free swatches of any fabric to clarify colors. Stage Accents can not accept responsibility of colors on custom items that were not clarified by the customer reviewing actual fabric swatches. Due to dye lot variations, we are unable to guarantee an exact match on all orders. Re-orders are best handled by sending in a sample garment. Please check your order upon receipt and before altering to see if there is any unacceptable variation in dye lot.

RECEIVING ORDERS

In each shipment a packing slip will be enclosed listing all of the items in that shipment. Please check your shipment against the packing slip and inspect each garment for damages. Shortages or damages must be reported within 48 hours of receipt of package.

RETURN GOODS POLICY

Returns are permitted on stock merchandise received within 30 days provided that the items are in new condition and all tags are still attached. Merchandise that has been worn or altered can not be returned. Goods returned for reasons other than manufacturing defects will be assessed a 10% re-stocking fee. No returns on custom merchandise will be accepted. Returns will be accepted only if proper authorization has been given. Call 800-631-1611 or visit us online www.stageaccents.com/requestform to request a return authorization number.

SHIPPING

Styles featured as Formal Quick Ship usually ship within 2-4 days. If in the event we are out of stock on any sizes, backorders will ship within 2-4 weeks. We provide the fastest service in our industry by stocking many of our popular formal dresses, tuxedos and accessories. Garments that are custom require production times that are indicated in the individual item description.
